Left

You left me behind  
Behind your new girl.  
You say you love her,  
Love me, love both of us.  
But that is a lie cause  
You left me behind.

We know each other  
Better than anyone else.  
Feeling happy, feeling sad  
We feel the same way.  
Helping each other,  
Loving each other.  
We are made for each other.

BUT

You left me behind  
Behind your new girl.  
You say you love her,  
Love me, love both of us.  
But that is a lie cause  
You left me behind.

You betrayed me,  
looking for someone else.  
I was only there to fill  
the gap you thought you had  
cause she hasn't been sure yet.  
But now she is.  
She wants you, you want her.

AND ME?

You left me behind  
Behind your new girl.  
You say you love her,  
Love me, love both of us.  
But that is a lie cause  
You left me behind.

I don't know why  
But I still

LOVE YOU!
