Kapitel 5: King Madness

fuck off
the time is over
madness is the king

come on
and tell me what it is
the things you hate
the things you love

dont worry
the end is near
closly to your side

come on
and tell me what it is
the things you hate
the things you love

allright
its allright
i am there

come on
and tell me what it is
the things you hate
the things you love

keep it not
to you alone
and be there
